2. Product specification (Software)

ASP service – related to KIOSK

Display of same menu for multi kiosks

Internet cloud service

2. Product specification (Software)

Payment : Simple process

The screenshot displays a food ordering application interface. A modal window is open, showing the details for the selected item, "계란찜정식" (Egg Stew with Rice), priced at ₩8,000. The modal includes a close button (X) and a quantity selector set to 1. Below the modal, a horizontal menu has "주문담기" (Add to Cart) selected. A red arrow points from this button to the "계란찜정식" item in the cart summary at the bottom. The cart summary shows the item name, quantity (1), and price (₩8,000), along with a close button (X). To the right of the cart summary are two buttons: "₩8,000 결제하기" (Pay ₩8,000) and "새로담기" (Refresh Cart). The background shows a grid of food items with their prices and a "주문" (Order) button.
